

MUHAMMED AMAN VP

Data Analyst

amaanvp1234@gmail.com | +91 6282080834 | Kannur, Kerala, India | LinkedIn

Summary

Motivated and detail-oriented aspiring Data Analyst with a Bachelor's degree in Commerce and practical experience gained through a 350-hour Data Analytics internship programme. Proficient in Microsoft Excel, Python, SQL, MongoDB, and Power BI with strong skills in data cleaning, data visualization, database management, and exploratory data analysis. Passionate about transforming raw data into meaningful insights that support data-driven decision-making and business growth.

Experience

Junior Data Analyst, *NJN Taxpert Proacc Pvt. Ltd.* 05/2026 – Present

- Cleaned and organized large datasets (20,000+ records) using Python and Excel
- Analyzed data to find patterns in customer behavior and business trends
- Built Power BI dashboards to track sales and business performance
- Wrote SQL queries to pull and analyze data from databases
- Helped manage MongoDB databases for storing and retrieving data
- Automated recurring reporting tasks, reducing manual effort and improving overall productivity.

Education

Bachelor of Commerce (B.Com) in Finance, *Kannur University* 2023 – 2026

Higher Secondary, *Imperial College* 2021 – 2023

Skills

Programming Languages

Python, SQL

Business Intelligence

Power BI

Databases

MongoDB, MySQL

Data Analysis

Data Cleaning, Exploratory Data Analysis (EDA), Data Visualization, Data Transformation, Data Interpretation

Microsoft Excel

Pivot Tables, VLOOKUP, XLOOKUP, Charts, Data Cleaning

Soft Skills

Analytical Thinking, Problem Solving, Communication, Attention to Detail, Team Collaboration, Time Management, Critical Thinking

Libraries

Pandas, NumPy, Matplotlib, Scikit-learn

Projects

Sales Performance Dashboard, *Power BI, Microsoft Excel*

- Developed an interactive Power BI dashboard to monitor monthly sales performance.
- Visualized revenue, profit margins, and regional sales trends using dynamic charts and KPIs.
- Improved reporting efficiency through automated data refresh mechanisms.

Customer Segmentation Analysis, *Python, Pandas, Matplotlib*

- Conducted customer segmentation using demographic and purchasing behaviour data.
- Identified customer patterns to support targeted marketing strategies.
- Presented findings through visual reports and charts using Matplotlib.

Retail Database Analysis, *SQL, MongoDB*

- Designed and queried databases to analyze inventory and customer transactions.
- Generated reports identifying top-selling products and sales trends.
- Optimized SQL queries for efficient data retrieval and database performance.
